

Wide variety of primary tubes available in mild steel or stainless

One of "Best Specialty Products for 2007" by Conservation Tillage Guide and Farm Catalog

MADE IN USA

Optional TB-18 tube for custom placement of acid/liquid

AR-400 tube protection

ShieldAg ST-16 HEAVY-DUTY Strip Till Point

Designed specifically for 8-12" deep application and subsoil shattering on strip till rigs. Heavy-duty point is designed to work through compaction zones ("hard pan") and flow soil around the shank to minimize landside wear and to pull easy at higher working depths

Available in 16" and 18" Lengths

Segmented chrome carbide shank protection stops soil flow up the shank

New heavy-duty shattering point flows soil around the shank
